FOR IMMEDIATE RELEASE

June 9, 2017

CHICAGO-AREA MONTREPRENEUR WANTS YOU TO CHANGE THE WAY YOU SHAVE - PRONTO!

Creates A Natural Chemical-Free Shaving Scrub Formula Using Sugar Crystals and Natural Oils

(Chicago, IL USA)- Momtrepreneur Jeanette Rodriguez, founder of Pure Shave Co., was in search of an all-natural, chemical free shaving product that would protect and exfoliate her skin while providing an irritation-free shave. After her unsuccessful quest, she created **Pure Shave Scrub®**, "*the Revolutionary New Way to Shave.*"

Pure Shave Scrub® is a shaving scrub made with all-natural oils such as Argan, Jojoba, and Coconut Oil, as well as large granulated sugar crystals that exfoliate, protect and nurture the skin while shaving, preventing razor burns and bumps, ingrown hairs, and hyperpigmentation.

"Our skin is our largest organ and what we put on our skin goes into our bodies, so we have to be mindful of the products that we use," said Jeanette Rodriguez, Founder of Pure Shave Co. "There are a lot of chemical heavy shaving products on the market which have trained consumers to believe that buying expensive razors with multiple blades is their only solution, my goal was to create a natural product that would exfoliate, remove dead skin cells and clear the path for a clean shave."

Rodriguez, an avid user of natural products was motivated to create a natural shaving product that would blend skin-nutrient high quality oils and exfoliating sugar crystals to properly prepare the skin for a clean shave. Pure Shave Scrub® removes dead skin cells, dirt, and impurities that obstruct the path of the razor while also providing the skin with nutrient oils for an irritation-free razor glide that prevents the inflammation that causes post-shave skin irritations.

Pure Shave Scrub® is 100% made in the U.S. with all-natural, U.S. ingredients, no artificial colors or fragrances, no parabens, no silicon, and no GMOs. Unlike other scrubs in the market, Pure Shave Scrub® is individually packaged allowing users to keep the product sealed and fresh, free from coming into contact with water until ready for use.

Pure Shave Scrub® provides all the nutrients needed to keep the skins natural beauty, and is suitable for the entire body. Pure Shave Scrub® is currently available in multi- use or single-use packets that can be easily applied while in the shower.

Pure Shave Scrub® is exclusively available online at pureshavescrub.com, an e-commerce website developed by Pure Shave Co., to promote shaving products that prevent ingrown hairs and razor bumps including Pure Shave Scrub®.
